READ THE SUBSTANCE ABUSE POLICY ON THE NEXT TWO PAGES. SIGN & DATE IT. TURN IT IN WITH YOUR APPLICATION PACKET.

All FAC/MAC/EMT students will have at least one (1) “no-notice” drug screen conducted during the class. Any student absent for drug screen will have twenty-four (24) hours to appear and submit for testing. Any deviation from this policy must be approved by the Fire Training Coordinator and Director of Business and Industry Services. Any evidence of illegal or illicit drug use will result in immediate dismissal from the program. Please see Drug Policy (below) for further information.

SUBSTANCE ABUSE POLICY

The safety of participants in the FAC/MAC/EMT programs is of paramount concern to Eastern Oklahoma County Technology Center (EOCTC). Students who use drugs or alcohol pose serious safety risks to patients, as well as other students and employees of EOCTC and the clinical facilities at which the students engage in clinical practice rotations. The use of alcohol and illegal chemical substances has a direct and adverse effect on the safety, personal health, attendance, productivity and quality of work of all students. Recent scientific studies demonstrate that the use of alcohol and/or illegal chemical substances reduces an individual’s ability to perform beyond the time period of immediate consumption or use.

Due to the devastating impact that the use of alcohol and/or illegal chemical substances can have on the safety of patients, students, and employees of Eastern Oklahoma County Technology Center (EOCTC) and various clinical facilities at which FAC/MAC/EMT students may perform clinical practice rotations, EOCTC will not tolerate students who use, possess, distribute, purchase, sell or are under the influence of alcohol and/or illegal chemical substances.

All students will be tested for drugs and alcohol, at the school’s expense, prior to their participation in clinical rotations. Additionally, students may be tested for drugs and alcohol, at the school’s expense, at any time on a random selection basis while enrolled in the FAC/MAC/EMT program. Finally, reasonable suspicion testing will be performed as needed, in the judgment of the Fire Training Coordinator, at the student’s expense. All drug and alcohol testing will be conducted in compliance with applicable law.

Testing positive for the presence of drugs and/or alcohol, or refusing or failing to participate in, or cooperate with any part of the testing process is a direct violation of EOCTC policy. This violation is taken very seriously.

Any student who tests positive for the presence of drugs and/or alcohol, or refuses or fails to participate in, or cooperate with any part of the testing process will be immediately dismissed from the FAC/MAC/EMT Program with no refund of any monies paid.

All FAC/MAC/EMT students must present themselves for drug testing upon receiving notification from the staff of EOCTC. Any student who tests positive for drugs and/or alcohol may ask for a review by scheduling a one-on-one appointment with the Fire Training Coordinator.

On a case-by-case basis, after conferring with the Medical Review Officer (MRO) of the Drug Testing Company and the FAC/MAC/EMT student, the Fire Training Coordinator may allow the FAC/MAC/EMT student to take another drug test at the student’s expense.
DEFINITIONS:

**Alcohol** means ethyl alcohol or ethanol.

**Drug or alcohol test** means a chemical test administered for the purpose of determining the presence or absence of alcohol or illegal chemical substance or their metabolites in a person’s blood, bodily tissue, fluids, products, urine, breath or hair.

**Drug or illegal chemical substance** means any substance, which an individual may not sell, possess, use, distribute, or purchase under either Federal or Oklahoma law. Illegal chemical substance includes, but is not limited to, all scheduled drugs as defined by the Oklahoma Uniform Controlled dangerous Substances Act, all prescription drugs obtained without authorization and all prescribed drugs and over the counter drugs being used for an abusive purpose. By the way of example only, the drugs which can be tested for are: amphetamines, cannabinoids, cocaine, phencyclidine (PCP), hallucinogens, methaqualone, opiates, barbiturates, benzodiazepines, synthetic narcotics, designer drugs, or any metabolite of any of these substances.

**Positive, when referring to an alcohol or drug test**, means a toxicological test result which is considered to indicates the presence of alcohol or an illegal chemical substance or the metabolites thereof, using the cutoff standards or levels determined by the State Board of Health or in the absence of such State Board cutoff levels, the cutoff levels customarily established by the testing laboratory administering the alcohol/drug test.

**Random Selection Basis** means a mechanism for selecting students for alcohol and drug testing that:
- Results in an equal probability that any student from a group of students subject to the selection mechanism will be selected; and
- Does not give EOCTC the discretion to waive any student selected under the mechanism.

Sign this waiver only if you have not completed the three shot series or do not desire to take the Hepatitis B vaccine.

The Hepatitis B Virus (HBV) is a serious and dangerous disease and may be contracted through the contact of blood, blood products, and other potentially infectious material.

EOCTC strongly encourages me to take the three shot series or the titer for the Hepatitis B virus. However, I DECLINE to be vaccinated at this time. I understand that by declining to be vaccinated I am at risk of acquiring the Hepatitis B virus.

EOCTC strongly suggests that if I going to have occupational exposure to blood, blood products, and other potentially infectious material in the future, that I should consider being vaccinated with the Hepatitis B vaccine.

EMT SPECIALIST PROGRAMS FAQ

Who should attend the EMT Specialist program? Individuals who are looking to improve their marketability within the Emergency Medical Services and Fire Services careers. This program is offered at both the EMT Basic and EMT Advanced levels.

What is the difference between the EMT SPECIALIST programs and the EMT standalone programs? The EMT SPECIALIST programs include all of the EMT standalone program plus training and certification in fire-related courses and physical training. It’s a new trend in the EMT industry that will enable the EMT who is first on the scene to be better prepared and will increase the student’s marketability as a provider or support resource.

What are the fire-related courses that are included in the EMT SPECIALIST programs? There are 13 courses in the Fire Academy program that the EMT Specialist student will attend on given T/W/TH class days. These courses are: Orientation to the Fire Academy; Basic Fire Behavior & Extinguishers; Ropes for Emergency Responders; Intro to Water Rescue; Hazardous Materials Awareness; Basic Vehicle Extrication; NIMS Intro to the Incident Command System; Weapons of Mass Destruction-Awareness; Crime Scene/Drug Lab Awareness; Public Speaking & Communications; Emergency Vehicle Operations; EMT Specialist Skills Lab; and Firefighter Physical Training I.

Can I receive Financial Aid for the EMT Specialist programs? Yes, the EMT Specialist programs are eligible for VA benefits. However, the EMT Specialist programs do not qualify for the Pell Grant (FAFSA) or any other type of assistance. See the “Financial Aid Information” attachment for more information.

I’m active military and/or a reservist. What is the policy if I’m called up for active duty during an EMT or FAC program?

• **Active Military and/or Reservists (Fire Academy Programs):**
  If a student, who is active military or a reservist, is called up for active duty, the student would be allowed to withdraw from the program in good standing. Any unpaid charges would be voided. The student would be granted Advanced Standing for any fire certifications earned in the previous fire academy, if the student returns to attend a fire academy program in the future. If a student knows they will have scheduled military training before enrollment, then the student should enroll in the term that does not include the scheduled military training.

• **Active Military and/or Reservists (EMT Programs):**
  If a student, who is active military or a reservist, is called up for active duty, the student would be allowed to withdraw from the program in good standing. Any unpaid charges would be voided. The student would be granted Advanced Standing for CPR and Anatomy & Physiology, if completed successfully with at least a “C” at time of withdrawal. If a student knows they will have scheduled military training before enrollment, then the student should enroll in the term that does not include the scheduled military training.
