Architecture & Construction

3D Design and Modeling Technician - MN0011602

Who can Enroll?

Juniors | Seniors

Schedule

Monday-Friday
AM Session: 8am-11am
PM Session: 12pm-3pm

Estimated Completion

HS Student: 1 Year

Program Description:

Help bring your clients' design ideas to life as a modeling and design technician. This program will teach you the essential elements of computer aided drafting and design using the same computer software as design and engineering professionals. You'll learn how to create 2D drawings and blueprints for parts/assemblies/buildings and how to successfully present your designs to clients using custom animation and 3D virtual walk-through models. The possibilities in 3D Modeling and Design are as endless as your creativity! In this career, one day you might work with clients to design a detailed building and the next day you could find yourself helping a business owner maximize the space they have for equipment in a commercial building.

Cost:

Tuition(adults)- \$1,012.50
Est. Out-of-Pocket- N/A
Certification Exams: EOC
Books: Property of EOC

Schedule

Monday-Friday
AM Session: 8am-11am
PM Session: 12pm-3pm

Estimated Completion

HS Student: 1 year

Program Description:

This foundational program introduces creative students to the world of graphic design. Through hands-on projects, students develop a designer's mindset, explore design concepts in depth, and learn to make intentional design choices. They gain a solid understanding of graphic design principles and elements, effective visual communication, and align their expectations with industry standards. Along the way, students build proficiency in Adobe Photoshop, InDesign, and Illustrator—essential tools for bringing their creative ideas to life. Whether you're a designer or an artist, these skills serve to strengthen their overall creative abilities.

Transportation, Distribution, & Logistics Automotive Service Technician- ASE Aligned- TR0156602

Who can Enroll?

Juniors | Seniors | Adults

Schedule

Monday-Friday
AM Session: 8am-11am
PM Session: 12pm-3pm

Estimated Completion

FT Adult: 2 years
HS Student: 2 years

Program Description:

Students in this major will cover the skills necessary to become an entry-level technician. Students will concentrate on courses in introduction, brakes, steering & suspension, electrical/electronics, engine performance, heating and air conditioning, engine repair, automatic transmission, and manual drivetrain & axles. Students will learn how to diagnose and complete brake service, perform vehicle steering & suspension alignment, as well as electronic theory, and electrical/electronic diagnostics. Students will cover engine performance diagnostics and techniques for repair using a variety of diagnostic equipment. This career major includes automotive heating and air conditioning. The student will learn how to evacuate and recharge air conditioning systems using the proper refrigerant, as well as diagnostics of the heat and air conditioning systems. This career major is intended to provide courses closely aligned with NATEF hours and tasks. ASE certification is recommended and industry-recognized.

Cost:
